# **Well Child Visits**

## A Key to Healthy Kids

Naturally, we bring our kids to the clinic when they're sick. Did you know it's important to bring them in when they are well, too?

### Well child visits help:

#### **PREVENT PROBLEMS**

The clinic team will:

- Find health problems early
- + Make sure shots are current
- + Review healthy eating
- Check on the child's safety

#### TRACK GROWTH AND DEVELOPMENT

The doctor will measure:

- + Height and weight
- + How your child learns and grows
- + Milestones
- + Mental and social health

#### **BRING UP CONCERNS**

You can talk to your doctor about your child's:

- + Behavior
- + Sleep
- + Eating
- Growth

- Ability to get along with others
- + Learning, thinking and problem solving
- + Physical activity

#### **CREATE A TEAM APPROACH**

You and the clinic team can:

- Build trust in each other
- Help when well and help when sick
- Work together for your child and family needs
- Find other resources to help your child

#### **BIRTH TO 15 MONTHS OLD**

2-5 days old 1 mo. 2 mo. 4 mo. 6 mo. 9 mo. 12 mo. 15 mo.

#### 18 MONTHS TO 3 YEARS OLD

18 mo. 2 yr. 2 ½ yr.

#### 3 TO 6 YEARS OLD

3 yr. 4 yr. 5 yr. 6 yr.

#### Continue yearly well visits into adulthood

Well child visits help give your child the best chance to grow into a healthy adult.

Check your health plan to see when well child visits (pediatric preventive visits) are covered.
