- PERSONAL SERVICES
- SINGLE-STALL GARAGE
- LOCAL TRANSPORTATION

It's a truly wonderful and treasured life, living in the high plains of the Dakotas.

Lifetimes of cherished memories result from many years of friendships, a loving family, and an independent lifestyle.

Western Horizons Assisted Living is the place to continue this lifestyle while sharing an environment of comfort, safety, and fun.

Western Horizons Assisted Living is a partner of Western Horizons Living Centers which includes Western Horizons Care Center. This organization and the services provided along with the hospital and clinic services offered by West River Health Services provide a complete rural continuum of care for our region.

Continuum of care means that we provide a team based model of care led by the tenant's personal physician and health-care team who provide continuous and coordinated care throughout their lifetime.

Assistance: Service Payments for the Elderly and Disabled (SPED). SPED is state funding for the personal care services offered at an assisted living facility, for those who meet the financial and functional eligibility. The asset limit is \$50,000 and there is a sliding fee scale used for monthly income. Call for more information.
